

# What's new in Single Copy Edition 3.5

## 1. Invoicing Updates

- Web payment entry
- Multiple payments
- Misc. transactions – non publication related, like delivery fees
- Deferred returns – returns 1 week previous to draw
- Formatted invoices exportable to pdf, excel, etc.
- Account balance
- Late returns credited to balance
- Configurable remit to address for alternate agencies and contractors

## 2. Reporting Enhancements

- All reports exportable to any format; pdf, excel, word, etc.
- More multiple search criteria and drill down capabilities
- Report alerts – setup canned reports to be auto-emailed

## 3. Pre-set exports for national publications

- USA Today, NY Times, Wall Street Journal

## 4. Restrict adjustments, returns and/or forecasting at the account and publication level

## 5. System alerts – email of any system events (errors, etc)

## 6. Proof of Delivery Enhancement

- View signatures on invoices and delivery receipts captured from a hand held device and exportable to PDF for emailing proof of delivery

## 7. Cloud Offering – Synchronex can host the solution in a secure facility providing the latest version of Microsoft SQL Server and backing up your data.

## 8. Ability to give contractors management of their own accounts.

## 9. Integration with the Single Copy Distributor System

## 10. Various minor improvements.
